TEN PAGES TODAY

## TRIO IS GIVEN PRISON TERMS

Archie Stacey and John Griffin, Implicated in Fatal Shooting, Each Draw 2 to 14 Years

EACH ONE ASLO FINED \$100

Sentence of 1 to 14 Years Imposed on George Allen, Accused of Larceny, Suspended

Three men were arraigned this morning in the circuit court before Judge Sparks, and upon pleas of guilty, each were given fines and prison sentences on their various charges. The trio was composed of Archie Stacey, John Griffin and George Allen.

Stacey and Griffin, charged with assault and battery with intent to kill, pleaded guilty and each was fined \$100 and given a two to fourteen year sentence in the state prison.

Allen, after pleading guilty to a charge of grand larceny, was given a fine of \$50, and a sentence of from 1 to 14 years in the state reformatory. Allen said he was 23 years old. After a severe lecture, Judge Sparks told him that if he would leave the city, and behave himself, the sentence would be suspended, and he was given his freedom.

Stacey and Griffin each gave their ages as 31 years. These two men were with Herbert Troxell on the Sunday night that the trio was said to be intoxicated and caused a disturbance near Occident, and which resulted in a gun battle between Sheriff Jones and the men, and also in the death of Troxell who was shot by the sheriff.

Stacey is married, and has a wife and small child living in Raysville, near Knightstown. Griffin is single, and his home is said to be near Metamora.

Allen hails from Alpine, Fayette county, and was charged with stealing \$50 from Mrs. Mary Nestle of West Ninth street. The fact that he was supposed to have been the leader of the prisoners who made their escape from jail last week, was not held against him. There is no law by which a prisoner can be punished for breaking jail, but there is a penalty for a person to give prisoners any assistance in breaking jail. Sheriff Jones and Deputy Hugh Jones, will leave in the morning for Michigan City, where they will take the two prisoners.

## ALLEGED CHICKEN THIEVES CAPTURED

Albert Capp, Awakened by Squawks, Calls Neighbor and They Find Two Men in Bushes

TURNED OVER TO THE POLICE

Davison Riley and Percy Meyers, were placed in jail early this morning on suspicious evidence of chicken thievery, and an investigation is being made as to how and why they happened to be in hiding this morning when Bert Osborne and Albert Capp found them in some bushes along the road south of Rushville.

Mr. Capp was awakened about 1 o'clock this morning when he heard a chicken squawk, and he aroused his neighbor, Mr. Osborne. The two went down the road to the junction of the Winship and Milroy pike, and four chickens were found hidden in the brush, and in another place the two men were in hiding.

They were unable to give a good account for their actions, and they were brought to Rushville and turned over to Patrolmen Jenkins and Nicholson, who placed them in jail. Riley is said to have had a revolver in his possession.

The owner of the chickens was not found today, as neither Mr. Capp nor Mr. Osborne had a black hen, which was in the bunch. The other three were dominicks. Riley only recently was in court on a charge of forgery and is now out on a suspended sentence. He lives near Knightstown and the Meyers boy is said to reside on the Rush G. Budd farm, south of Rushville.

## WARRICK TEAM IS WINNER

Boys From This County Victorious in State Fair Contest.

Indianapolis, Ind., Sept. 7.—Warriek county's boy team won the first place in the state fair livestock judging contest today. Clark county was second, Blackford third, Shelby fourth and Owens fifth.

The Warriek county team won the \$200 trophy and will represent the state in the national judging contest at Chicago in December.

The Henry county team ran sixth in the team competition and William Graves of the team ran fifth in the beef cattle contest.

## DECISIVE DEFEAT OF TWELVE IS SEEN

Victory For Only Suffrage Amendment Indicated by Partial Returns From Election

COMPLETE IN MARION COUNTY

Five Receive Majority There, But Elsewhere all Are Lost Excepting The First

(By United Press)

Indianapolis, Ind., Sept. 7.—Decisive defeat of all except the citizenship amendment in yesterday's special election was indicated by complete returns from Marion county and scattered reports from several cities of the state today.

Five amendments received a majority vote in Marion county where the total vote was 14,458 or 10 per cent of the normal vote.

The amendments approved were the citizenship amendment, the one permitting the governor to veto individual items in the appropriation bill, the lawyers amendment and the thirteenth amendment.

The two proposed tax amendments were defeated by about 4 to 1, incomplete unofficial counts in the state so far showed.

Numbers 5 and 6, making the terms of county and state officers four instead of two years, were lost despite the fact that the more votes were for them than against, the favorable majority not being a majority of all votes cast in the election.

The heaviest vote was on the citizenship amendment, which carried by about 5 to 1 in Marion county. The taxation amendment carried only 6 of the first 131 precincts reported.

The colored vote in Indianapolis was comparatively heavy on the militia membership proposition, but practically no votes were cast for on other amendments in negro precincts.

Number 4, giving the governor power to veto individual items in appropriation bills, carried nearly 2 to 1 in Marion, as did No. 13, providing against salary increase

## COUNCIL REDUCES COUNTY TAX RATE

Fixed at 15 Cents For 1922 as Compared With 17 Cents and 2 Mills This Year

OTHER LEVIES AGREED ON

Gravel Road Bond and Interest Rate Cut in All But Five Townships

The county tax rate was reduced two cents and two mills by the county council today, the flood bond levy was made one cent, the county poll one dollar and the gravel road bond redemption and interest fund tax rates were fixed for each township.

The county council expected to adjourn its annual session late this afternoon after making the tax levies and appropriating funds to meet the expenses of the county next year. The appropriations were not available late today as they had not been definitely settled upon.

The county commissioners also fixed the county gravel road repair tax at ten cents for 1922, the same as it is this year. This levy is for the maintenance of roads.

The county rate was made 15 cents for next year as compared with 17 cents and two mills this year. The flood bond rate is two mills higher because there is no balance in the fund this year, one making possible a slight reduction last year.

All of the gravel road bond redemption rates in the townships were decreased except in Orange, Anderson, Rushville, Walker and Union townships. The increases are due to increase road building as the money in this fund is used to pay the interest on road bonds and to meet them when they fall due.

The rates by townships for this year and last follows:

	1921	1922
Carthage	.39	.27
Ripley	.39	.27
Posey	.31	.305
Walker	.06	.23
Orange	.15	.545
Anderson	.34	.58
Rushville	.07	.17
Jackson	.53	.18
Center	.20	.13
Washington	.04	.025
Glenwood	.15	.195
Union	.15	.195
Noble	.35	.19
Richland	.31	.19
Rushville City	.07	.17

## FAKE, POLICE BELIEVE

Muncie, Ind., Sept. 7.—Local police after a ten days investigation of the alleged assaults on two young girls who said they were attacked by men who after striking them cut off their hair, dropped their inquiry. It is the belief that the alleged assaults were only imaginary. The alleged victims cutting off their own hair after their parents refused permission of having it bobbed.

## WILL RECEIVE BIDS OCTOBER 4

Council Decides to Advertise For Estimates on Pumper Big Enough to Meet Requirements

TO DRAW UP PLANS FRIDAY

Regarded as Certain That Pumper Larger Than One First Demonstrated Will be Bought

A further communication regarding new fire apparatus appears on page 5 today. It answers "Interested Citizen," who wrote yesterday.

The city council, which met in regular session last night, reached the conclusion that motor fire apparatus would be purchased, and a motion was passed whereby the bids for a pumping engine, combination hose, ladder and chemical truck, will be opened on October 4.

The decision was reached last night after some little argument, but all councilmen were in favor of purchasing a pumper, and one large enough to meet the local requirements. Mayor Scudder appointed Mr. Mauzy and Mr. Abercrombie as a committee to draw up plans and specifications, and a special meeting will be held Friday night, at which time the council will approve the plans.

The bids will then be advertised for 21 days, and when the council meets for the first time in October, which happens to be the fourth, the contract will be given to the firm which makes the best proposition, and has the best outfit for the local needs. The plans and specifications will call for a triple combination truck, including a 45 gallon chemical truck, a hose bed for 1,000 feet of fire hose, ladders, and a pumping engine with a capacity from 350 to 600 gallons.

It is almost a decided fact among the councilmen that a 600 gallon pumper will be purchased. This is 100 gallons larger than the one demonstrated here first. It is believed that the local requirements will exceed a 350 gallon pumper. The councilmen also stated last night that they intended to buy an outfit that would be the best, and nothing of a cheap nature would be purchased.

W. H. Deitch, a representative from the American-La-France Fire engine company, was present, and talked to the council concerning the pumper which his firm builds. He assisted in drafting up plans and specifications, and will be among the bidders on October 4.

It is expected that practically all of the manufacturers of fire equipment will have bids here.

## BODIES ON THE WAY HOME

Remains of Those Who Perished in ZR 2 Disaster on Dauntless

Devonport, Eng., Sept. 7.—Carrying the bodies of the 15 American officers and men who perished in the disaster to the ZR 2, the British cruiser Dauntless, left England this afternoon for New York.

The airmen who would have attempted the Atlantic crossing in the dirigible about this time, were paid every military and naval honor as the flag draped coffins were carried aboard the Dauntless, to start their voyage to the United States.

## WAGES CUT 10-40 PERCENT

Revival in Building Expected Following Reduction by Landis.

Chicago, Ill., Sept. 7.—Wages of 60,000 building trade workers in Chicago were cut 10 to 40 per cent in the decision handed down by J. Judge Landis, arbiter, today.

An immediate revival in building will likely break forth following the settlement of the dispute between the union and employers.

Forty trades were affected by the wage decision. The wages of every trade which came before the judge for settlement were cut except the stone cutters and their rate was left at \$1.25 an hour.

## IS BEHIND THE COUNTER

A. L. Riggs Assumes Duties as Rushville Postmaster

A. L. Riggs was back of the counter at the Rushville postoffice today having been officially installed Tuesday when G. P. Hunt, who has been postmaster for more than eight years, was officially "checked out."

Mr. Riggs received word early last week that his commission had been signed and was being forwarded to Rushville, but it did not arrive until Saturday, and on account of Monday being a holiday, he waited until Tuesday before taking the office.

## ONLY ONE GIVEN LEGAL MAJORITY

With Rush County as Unit, First Amendment Alone is Passed in Election

2439 ELECTORS TAKE PART

Tax Amendments And One Providing for Higher Standards For Lawyers Lack Majority

With Rush county as the unit only one of the thirteen proposed amendments to the Indiana state constitution passed in the special election Tuesday, according to official returns. The first amendment alone received a majority of the total number of votes cast in the election.

The state is the unit, however but unless the vote is vastly different in many other counties, the prospect for any of the amendments passing is very slim. The law provides an amendment to become a part of the state's basic law, must receive the votes of a majority of all of the electors participating.

A total of 2,439 persons voted in the election in Rush county, which is little more than one-fourth of the qualified voters in the county. The estimates placed the probable vote at forty percent and indications during the voting yesterday were that not one-fourth of the normal vote would be registered.

The first amendment designed to discontinue the right of foreigners with their first papers to vote received the largest total vote and likewise the largest favorable vote. The vote for and against this amendment amounted to 2,336, those for it numbering 1,686 and those against it 680. It will be seen the number for it was greater than a majority of the voters taking part in the election who numbered 1220.

The two tax amendments were overwhelmingly defeated in this county, the majority against the tenth being ten to one and against the eleventh almost seven to one. The amendment to permit colored men to serve in the state militia was also defeated in the county, as was the one to prohibit the legislature from raising salaries of public officials while in office. The one providing qualifications for lawyers was defeated by a small margin.

The vote on all of the amendments was as follows:

No. 1.—To make constitution continuous. Continued on Page Five

## TO ESTABLISH CLUB ROOMS

American Legion to Furnish Quarters Over Dixon Millinery Store

The rooms over the Dixon Millinery store, on West Second street, are being renovated, repaired and modernized for permanent occupancy as club rooms by Rush Post 150, American Legion, it was announced today. The local Legion has been holding meetings in the assembly room of the court house, and a committee has been investigating a place for suitable club rooms for several weeks. Before meeting in the court house, the Red Men lodge donated the use of their building.

The rooms will be fixed up soon, and will be open all of the time for the Legion members, and future meetings will be held in the new club rooms.

## STUDENTS ARE ROTARY GUESTS

Forty-Three Who Will Attend College This Fall Entertained at Dinner Tuesday Evening

ROTARIAN WIVES PRESENT

Dynamic Talk of 16 Steps to Success by Tom C. Igo of Chicago—College Students Speak

Forty-three college students living in Rushville and vicinity were guests of the Rushville Rotary club at a meeting at the Social club Tuesday evening, at which Tom C. Igo, of Chicago, business manager of the Golden Rule magazine, was the principal speaker. Wives of Rotarians were also guests, making the number who enjoyed the dinner served at seven o'clock, one hundred and twenty.

Mr. Igo delivered a dynamic talk on "The Magic Ladder to Success," which he says is composed of sixteen rounds. He defined each and demonstrated to the college students present that if his creed is followed, there is no occasion for falling short of one's chief aim, which must first be established.

"The only thing impossible," said Mr. Igo, "are those things which can not be imagined. In every man's cranium is the power to accomplish anything he aspires to do. There is nothing occult or mysterious about it. All that is necessary is to have a chief aim and fix it as a definite purpose."

Lawrence L. Allen, president of the Rotary club, presided following the dinner, during the courses of which Rotarians and their guests sang familiar songs under the leadership of Miss McConnell, the new supervisor of music in the Rushville public schools. Merle Maupin provided the accompaniment.

The invocation was pronounced by Dr. John M. Walker, a new member of the Rotary club, and the program began with the singing of "America."

Miss Magdalene Arbuckle, graduate of Rushville high school with the class of 1921, who will attend Butler college next year, and Harold Perkins, Wabash college student who was graduated here three years ago, presented the "before and after taking" of a college education.

Miss Arbuckle briefly outlined her anticipations regarding college and Mr. Perkins gave his impressions of college after three years

## PATRICK M'LAUGHLIN DIES THIS MORNING

Aged Man Who Came to This Country From Ireland When 20 Years of Age, Expires at 12:30.

LIVED WITH HIS DAUGHTER

Patrick McLaughlin, a native of Ireland, died this morning at 12:30 at the home of his daughter, Mrs. Wallace Morgan, 306 East Fifth street, death being due to senility and complications arising from a stroke of paralysis of which he suffered three years ago.

The deceased was born 89 years ago in Ireland and left that country when 14 years of age, spending six years in England, and arriving in this country when he was 20 years old. From that time on he was a resident of Rush county, being engaged in farming near Richland. Before the Civil war, he lived in Rushville. His wife died 17 years ago, and since then he had made his home with his daughter, Mrs. Morgan. He served in the 52nd Indiana Volunteers during the whole four years of the Civil war.

Mr. McLaughlin suffered a stroke three years ago and since then had been an invalid. Besides Mrs. Morgan, the deceased is survived by a son, James McLaughlin of this city. The funeral services will be held Friday morning at nine o'clock at the St. Mary's Catholic church, in charge of the Rev. Francis Schaub, and burial will be made in Calvary cemetery.

## TRUCK HITS FORD, OVERTURNING IN DITCH; TWO OF FOUR OCCUPANTS HURT

Harley Kaster and Frank Hutson, Jr., Painfully Injured and Others Miraculously Escape

PEOPLE IN FORD ARE UNHURT

Two men were badly bruised and painfully injured and two others escaped with only slight bruises this morning when an automobile truck driven by John Thompson of this city, collided with a Ford touring car driven by John W. Anderson, in front of the Anderson residence, a few miles south of here on the Winship pike.

Those injured were Harley Kaster and Frank Hutson, Jr., the former being the more seriously injured of the two. He suffered bruises to the muscles of his back, and several

bodily injuries. Hutson was cut above the right eye and had several bruises and cuts about his body.

Besides Mr. Thompson, a boy, Fred Clark, was riding in the machine. The Thompson truck was headed south and as they approached the Anderson home, Mr. Anderson came out of his driveway. The truck struck the touring car and overturned in the ditch. The truck was almost demolished, and it is regarded as fortunate that the four occupants escaped so luckily. Mr. Anderson's machine was not damaged, only a bent fender resulting.

The two injured men were brought to Rushville and their injuries dressed by Dr. R. O. Kennedy, who stated that their injuries would not amount to anything of a serious nature.

# WAVE OF ENTHUSIASM SWEEPS OVER NATION

**Thousands Write Grateful Letters of Appreciation as Famous Medicine Continues to Accomplish Remarkable Results — Great Tanlac Laboratories Running at Top Speed to Supply Record Breaking Demand — Over Half a Million Bottles Behind With Orders..**

By CHARLES MURRAY GILBERT

Atlanta, Ga., September 7.—"Tanalac made me feel younger." "It put me back on the payroll." "I now have a fine appetite." "I can eat whatever I want." "No more dyspepsia for me." "I gained weight rapidly." These and scores of like expressions are now heard daily from tens of thousands, as grateful users of Tanlac tell of their experiences.

Leading drug men of the country are amazed at the tremendous sales of Tanlac, and point out enthusiastically that nothing has ever equaled the phenomenal demand for this preparation.

At the great Tanlac laboratories at Dayton, Ohio, letters and telegrams are pouring in daily asking that shipments of Tanlac be rushed at once. Many of these orders are for full carload shipments, and quite a few of them for two and three carloads. Although running at top speed, the Tanlac laboratories are now over half a million bottles, or approximately twenty-four carloads behind with orders. This announcement will no doubt be received with great surprise in the drug world, because business in many lines, especially in the drug and medicine business, has been off from 40 to 50 per cent.

## Agents in Every Town.

One druggist in every city, town and village in the United States and Canada where agencies have not already been established will be awarded the exclusive publicity agency for Tanlac within the next thirty days. These agencies will carry with them a big publicity campaign exclusively for the one druggist in each city and town who secures the agency.

Tanalac is going right ahead more vigorously than ever before. For Tanlac there is no such thing as business depression. In fact, Tanlac does not believe there is such a

thing as hard times; at least not in the drug business. Things are getting better every day. In a few weeks' time crops will begin to move. Hundreds of millions of dollars will be put into circulation, and business will soon be back on a better and sounder basis than in years.

## Notice to Dealers.

Many wholesalers and manufacturers stopped pushing at the very first sign of a dark cloud. The result being that many drug lines have slumped. Tanlac went right ahead and the result has been that more Tanlac has been sold during the first six months of the present year than in any corresponding period in the past.

Line up with Tanlac. Connect with a product that sells no matter how the times, because of its superior merit.

Although Tanlac has been on the market over six years, it is an actual fact that more Tanlac is being sold today with the same amount of advertising than during any time in the past.

Tanalac will not only prove your greatest seller for this year, but for many years to come.

Tanalac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

# STRIKE QUESTION IS VOTED ON DIRECTLY

**Five Big Railroad Brotherhoods in Cleveland Receive Ballots on Wage Demands**

UP FOR FINAL DISPOSITION

(By United Press)  
Cleveland, Ohio, Sept. 7.—Members of the five big railroad brotherhoods whose headquarters are here, are voting directly on the question of a strike, it became known today.

Copies of the ballots sent out to the membership of the five unions were obtained today by the United Press and show the question is on whether to strike or accept wage reductions ordered by the United States Railway Labor Board.

Examination of the ballots show that the wording is practically identical with that of the trainmen, clerks and shop workers unions which already have voted in favor of a walkout.

The railroad trainmen, if they vote to "leave the service" have only to wait for the sanction of the general grievance committee before they walk out. This sanction the men are told in the ballots will not be withheld.

The engineers, firemen and engine-men, conductors and switchmen are given even more latitude.

"If the membership of these organizations vote to accept the wage reduction, it disposes of the matter" the ballot sent to the unions declared.

# DISSATISFACTION OVER COLLECTION

**Councilmen Discuss Frequent Complaints They Receive Regarding Garbage Plan**

INSTRUCTIONS NOT FOLLOWED

**New Boiler and Stocker Ordered for The City Plant at Cost of \$11,872.25**

Considerable discontent was shown at the council meeting last night over the collection of garbage, and unless conditions improve, it was intimated that the contract will be taken away from Rex Innis. Every member of the council, and Mayor Scudder, stated that they had received so many calls daily that the matter was not being taken care of properly, which resulted in the subject being brought up for discussion.

The general opinion of the council was that the garbage collector is not following instructions, but is "acting as his own boss".

The police motorcycle came up for a lengthy discussion when it had been reported that the side car had been demolished. Several members of the council think it best to do away with the side car and the police committee will investigate and report at the next meeting.

The Pulmotor which is out of repair will be fixed up, and the various parts and a new tank will cost a total of \$35, but this price is considered small if the machine would save a life from drowning or an electrical shock.

The city water has been again tested by the state laboratories, and the chemical analysis shows that the water is pure in every detail. The law compels the city to have the water tested at frequent intervals.

Record also was made last night of the decision concerning the new boiler and stocker for the water and light plant. The contract was awarded on August 29 to the Heine Boiler company, and the total price for the two pieces of machinery will be \$11,872.25.

The council also ordered a car load of paving brick last night, which will be used in street repair work. The bricks will be the same as used in Main street and will cost about \$37 a thousand.

## NEW YORK STOCK MARKET

New York, Sept. 7.—The market was rather tame at the opening today.

The early transactions were in hundred share lots and the changes from yesterday's close were only fractional. United States steel common was unchanged at 76. Mexican Pete opened up 1/4 at 109 1/2 and then ran up to 110.

Asphalt was half higher. United States Rubber made an early low at 47 1/2. Sugars were slightly higher. Equipments acted well with Baldwin getting above 80.

Opening quotations included: Studebaker 74 3/4, up 3/4; United Fruit 106 1/4, off 1/4; Baldwin Loco. 80, unchanged; Crucible 59 1/2, up 1/2; Sears Roebuck 66 1/2 off 1/4; Chandler 44 1/4, up 3/4; American Woolen 73 1/2 up 1/4.

## SCRATCH PADS

## FRED M. STONE TO LECTURE HERE FRIDAY

"My Servant Job" Will be Subject For Noted Platform Man at St. Paul's Church

### AUSPICES OF AID SOCIETY

Dr. Fred M. Stone's popular lecturer, "My Servant Job," will be heard in St. Paul's Methodist Episcopal church this city on Friday evening of this week at 7.45 o'clock. Dr. Stone has been associated with the American University of Washington, D. C., for eleven years and is a scholar, teacher and orator of fine personality, and unusual talent, coming to the community with splendid recommendations.

The lecture to be given here has been booked for a long series of engagements on the Lyceum platform during the coming winter months. Dr. Stone comes to Rushville under the auspices of the Ladies Aid Society of St. Paul's church. Admission tickets have been priced at twenty-five cents. A large attendance is anticipated.

### Amusements

#### Star Makes Her Debut

Dorothy Dickson, who according to Flo Ziegfeld, is "the greatest dancing personality in the world", makes her debut in motion pictures in "Paying the Piper", George Fitzmaurice's latest Paramount production, which will be shown at the Princess Theatre today and tomorrow. Although Miss Dickson had refused many offers in the past, she consented to appear in the role of Barbara Wyndham in the picture.

Miss Dickson has had an interesting career, which has begun five years ago. With her husband, Carl Hyson, she made a success in hotel entertainments. When they appeared at Rector's in Chicago, Ray Comstock saw them there and, upon returning to New York, induced them to join the "Oh Boy" company. Following this, Mr. Hyson and Miss Dickson were with such musical shows as "Rockabye Baby", "Girl O' Mine", and "The Royal Vagabond." Miss Dickson also scored a hit in "Lassie", in which she sang danced and acted for the first time.

In the role of Barbara Wyndham, who prides herself on the number of cigarettes she can smoke and who believes that everything can be bought with money, she has a role to which her charming mannerisms are readily adapted.

#### Serial Opens Thursday

That stalwart Fox star, William Russell will be shown at the Mystic today, appearing not in cowboy togs, but in the fashionable outfit of a Wall Street millionaire. But he promises to furnish as many fights and as many thrills as he ever put across in a western picture. The play is "Children of Night" from Max Brand is surely a pastmaster in supplying thrills to a fiction-reading public.

"Terror Trail," a Universal serial in which Eileen Sedgwick will play the hazardous starring role under the direction of Edward Kull, is coming to the Mystic on Thursday.

In no serial production in which she has heretofore been featured has the radiant blonde been required to do the dangerous feats which have been outlined for her in "Terror Trail".

The story of "Terror Trail" was written by John W. Gray and Edward Kull with the supervisory collaboration of William Lord Wright, chief of the serial and short-reel feature department at Universal City.

In scope the narrative is cosmopolitan, touching every country on the globe. In theme it concerns a girl who, single-handed, undertakes a patriotic service to her country by solving a great international mystery and frustrating the plans of crooked diplomatic agents.

The plot, which comes with smashing swiftness, cannot be told at this time, but it is said to have an international significance which will add to its force.

#### TO BE BURIED HERE

The body of Mrs. Eva Guild, widow of the late Charles Guild, formerly of this city, who died at the Methodist hospital Tuesday at 9 a. m. following an operation for esophageal tumor, will be brought to Rushville Thursday for burial at East Hill cemetery. The funeral will be held at the late residence, 1720 Broadway, Indianapolis Thursday morning at 10 o'clock.

# Season of Values

Includes Every Department in the  
Finest Values the City Offers

**WOMEN** who like to be first with the new things—leaders rather than followers—will have rare pleasure in starting their Fall outfitting at Casady's.

**IT IS CASADY'S** constant endeavor to offer only clothes of distinctive design—exclusive in style—smart in their simplicity—originated by the best of the country's designers.

**THE GAUDY**—the overtrimmed, garish type of clothes have no representation in Casady's stocks.

**NO WOMAN** who wants to be sure about styles, quality and satisfaction can afford to miss seeing the new Fashions at Casady's.

**WE WANT** to emphasize the fact that Casady's clothes are the kind that will win the approval of the most critical and exacting women—in workmanship as well as originality, styling and quality.

**CUSTOMERS** have told us—and our knowledge confirms their statements—that nowhere else in the county is there such a complete variety of Fall clothes to be seen as at Casady's.

**HERE**, that idea that good clothes must necessarily be high in price, is disproved absolutely. Not in years have we had "VALUES" so outstandingly excellent as we have for this Fall.

**ONE EXCELLENT** way of being positive that one has selected to the very best advantage is to make comparisons. Casady's know well what the results will be when discriminating, clothes-knowing women buy by comparison.

**WE ARE READY** for our Autumn group of customers, old and new, with abundant resources in fresh, new, fetching fashions and all of them "right" in style, quality and valuation.

## Advance Sale of AUTUMN DRESSES

**A NEW** fall frock at this advanced season is interesting at any price. But when they come in such charming styles and with so many irresistible touches of newness, at such a price as \$19.75—it is enough to make even the woman who has not begun to think about her fall wardrobe, see the advisability of an early purchase.

The showing contains frocks of canton crepe, tricotine, serge and satins. The straight lines are still the most popular, though there are many variations of tunic and panel models. Many feature the new mandarin sleeve, the Russian sleeve, and some have the smart elbow sleeves.

Wool, Silk and chenille embroidery have an important place among the trimmings and there are many handsome beaded designs, and touches of brilliant color.

**\$19.75**

## As A Demonstration

of the real meaning of this Season of Value, we have established

## CLOTH COATS

SILK  
LINED

**\$24.75**

FUR  
OR  
CLOTH  
COLLARS

These coats for Fall are in stunning new materials as well as such old favorites as Bolivia, Wool Velour, Heavy Tweeds and Kersey. There are wonderful new colors in soft and becoming shades of grey, brown and blue, as well as black. Many of these coats have large collars of fine quality fur, others have the cloth collar. They come in all sizes, from 16 to 44.

## SUITS

View these new suits developed in Tricotine, Serge, Velour and Duvet de laine—with their wonderful new colorings of Malay Brown, Sorrente Blue, Navy and Black.

The beauty of line, a richness of color and materials that surpass anything past seasons have had to offer

**\$29.75**

## SILK PETTICOATS

No matter how conservative your outerwear may be, the petticoat that peeps beneath may be bright as you please. Every shade that is popular is here, in styles that conform to the new fashions, and the materials are of taffeta, messaline or Jersey, priced at

**\$4.98**

**BAN ON MARRIED WOMEN**  
Lake Forest, Ill., Sept. 7.—Five married teachers were discharged by the Lake Forest Board of Education today following adoption of a ruling barring married women from teaching jobs.  
"A wife's place is in the home not in the schoolroom," Mrs. U. B. Granis, one of the school board members, announced.

The Girls Circle of the Little Flat Rock Christian church will hold an exchange Saturday morning in the Gise and Monks automobile agency room.

Mrs. Bertha Hetherington two sons, Edward and Wilbur and daughter Ida, and Herman Cooper have returned to their home in Cincinnati, O., after a visit in this city with Mrs. Ada Lewark.

Mr. and Mrs. Dwight Miller of Richland township, who have been spending a few days in this city as the guests of Mrs. Miller's parents, Mr. and Mrs. George Green, started on a motor trip to California this morning where they will spend the winter.

Mr. and Mrs. L. R. Bishop returned today from a week's outing and fishing trip to Crooked Lake, near Angola, Ind.

Mr. and Mrs. Fred Bell and family have returned to their home north of the city after enjoying a several days outing at Crooked Lake, Angola, Ind.

Cyril Caron and John K. Tompkins returned to Lafayette today to resume their work in Purdue university. They were accompanied as far as Indianapolis by Mr. and Mrs. C. H. Tompkins.

Earl Morton, who has been spending the summer at Winona Lake, spent today here with relatives and tomorrow will go to Greencastle where he is a student in DePauw university.

Mrs. Pete Hollowell left this morning for a few days visit in Indianapolis.

Mrs. Margaret Morton has returned home from Winona Lake, where she spent the summer months.

Raymond Holbrook was among the passengers this morning to Indianapolis.

Miss Edith Hogsett left this morning for Princeton, Ind., where she will teach in the high school of that city.

Mr. and Mrs. Raymond Sharp and family attended the Indiana state fair yesterday in Indianapolis.

Denny Ryan was a visitor this afternoon in Indianapolis.

Homer Havens transacted business in Indianapolis this afternoon.

R. F. Seudder was among the passengers this morning to Indianapolis.

Carl Nipp and son were among the visitors this afternoon in Indianapolis.

Why Trade at Home?

Many people ask that question, but very few trouble to seek the answer.

Why should people patronize their home merchants?

Because it is a great saving of time, and time today represents money.

Because the home merchant can only remain in business through the patronage of home people and a town without merchants would be a sorry place in which to live.

Because the home merchant sells goods that do not have to be returned because of defects or inferiority of quality. It is the only way in which a local man can hold his trade.

Because the local merchant is not in the habit of charging excessive prices. You may at times be able to get the same article elsewhere for a little less money, but the quality will invariably be reduced in proportion to the price. The local merchant can not afford to sell "cheap" stuff. His customers would not tolerate it.

Because the prosperity of a community depends upon the amount of money in circulation in the community, and that is regulated mainly by the marketing of surplus products abroad and the keeping of as much as possible of the receipts at home.

Because a community that spends most of its money abroad for supplies soon finds that it has but little left for the purchase of additional supplies.

It is so simple a child could understand it, and what a child can comprehend should not go unheeded by adults.

Thinking it over.  
Thinking may accomplish much good. It certainly will do no harm.

A public health official states that college graduates are rapidly drifting toward a state of race suicide. That, however, is probably only one of the elevating effects of higher education, and can hardly be charged to wood alcohol.

No matter what may be accomplished by that Washington conference, the American housewife will never be disarmed. The broomstick is a fixture in every home.

No, we have decided not to mention the latest sensational murder. It is difficult to tell which is the latest.

Tired business men in some of our cities are taking to ballet dancing in order to acquire that willowy appearance.

From the Provinces

A Prayer Never Answered!

(Toledo Blade)

Colonel Bailey, of the Houston Post, rebukes paternalism as nobody else can. Listen, brethren, to this satirical supplication: "O Government, give up this 'day our daily pap, clothe us, doctor us, wipe our noses, wash our duds, plant the Congressional seed for us, hoe our gardens, put the bait on our hooks, reform us, nurse our babies and rub the bacon rind on our chiggers.'"

Mayhay They Were Seeing Things

(Birmingham Age-Herald)

So many sapient writers have informed us that the statesmen who drew up the Versailles peace treaty and the League of Nations covenant had no vision, we are beginning to suspect they are right.

Those Cows Were Made in Jersey

(Baltimore American)

The American cows which were sent to Bavaria are declared to be better milkers than the German cows. The old slogan of excellence has been changed to read "Made in America."

Bet His Ears Are Burning!

(Washington Star)

Berlin is conducting interesting experiments in long-distance telephone communication. The ex-kaiser, however, continues to listen in vain.

What? Venus the Trouble Maker?

(St. Louis Post Dispatch)

If the world decides to be armless the figure of the Venus de Milo should have a place on the International coat-of-arms.

Where Is the Criticism?

(Minneapolis Tribune)

"Some of the skirts," says the Washington Post, "are above criticism." That looks like a kneesy defense.

But You Have to Pays the Bills

(Dallas News)

A public service corporation is so called because if you don't get the service you have plenty of company.

Why Can't Congress Do the Same?

(Boston Transcript)

"Congressmen act like school-boys." Not! Schoolboys would take a recess and make it permanent.

STUDENTS ARE ROTARY GUESTS

Continued from Page One  
experience. He made the point that aside from the advantages offered by a college education, the friendships formed there are lasting and something to be cherished all of one's life.

Judge Will M. Sparks commented on the careers of many of the college students present, making some rather "personal" observations regarding the "cases" which have been observed among them. He also dwelt on the more serious side, emphasizing what it meant for Rush county to be sending so many of its young people to higher institutions of learning.

Judge Sparks pointed out that Rush county will invest from \$35,000 to \$40,000 in the young people who will attend college this year and declared that it was money well spent. He urged the students to remember their obligations to make the best of their opportunities in college and told them that their parents and friends who labored that they might have such advantages, were doing it gladly.

Judge Sparks pointed out that

Rush county would be represented in sixteen colleges and universities during the coming school year and gave the number who will attend each.

President Allen before introducing any of the speakers stated the aims and ideals of Rotary and expressed the genuine pleasure felt by the Rotarians and their wives because of the large number of students accepting the invitation to the dinner.

He said that the purpose of the Rotary club was not that of a commercial organization to build up the community commercially, but to interest itself in individuals, in the belief with the improvement of its people, other advantages in the way of commercial and civic development would logically follow. Pres. Allen pointed out that the Rotary club is immensely interested in education and was more than glad to encourage it.

J. H. Scholl, superintendent of schools, complimented the college students present for their ambition to seek further knowledge after their high school education. The point he emphasized was that they become acquainted with their professors in college because they would derive many more benefits from a college education.

Rotarians gave their customary roll call and the college students guests were also asked to stand when their turn come and give their name, the college they attend or will attend, and their chief aim in life. Embryo teachers predominated, but one girl fearlessly announced that her occupation after her college career would be that of a housewife.

Mr. Igo spoke for an hour and was given the closest attention. He outlined his sixteen rounds on the success ladder as follows:

- 1—Chief aim.
- 2—Self-confidence.
- 3—Initiative.
- 4—Imagination.
- 5—Action.
- 6—Enthusiasm.
- 7—Self-control.
- 8—The performance of more and better work than one is paid for.
- 9—Personality.
- 10—Accurate thinking.
- 11—Concentration.
- 12—Persistence.
- 13—Past failures.
- 14—Tolerance and Sympathy.
- 15—Work.
- 16—The Golden Rule.

"The first basic principle, the first prime essential to success in any undertaking is—a chief aim, a definite purpose in life. Other principles that I mention are essential and imperative to a degree, but this is the one great fundamental.

"The selection of a definite chief aim must necessarily be the first step to be considered, because this is the architect's plan from which you will work in transforming your objective in life from an idea into reality. It is the mariner's compass which keeps you headed in the direction in which you wish to travel.

Lack of self-confidence is probably "the widest of the chasms which yawn between men and the attainment of his chief aim if he has one."

"Initiative is probably one of the most necessary qualities which one must develop before rising out of the ranks of those who merely drift with the tide. But little effort is required to earn an existence: something to eat, place to sleep and something to wear, but it is necessary to overcome much resistance, much adversity and many obstacles if one intends to rise above the crowd and strive on to some one chief aim which is higher than the average. The thing which will help most in this undertaking is initiative; the quality of seeing what ought to be done and going ahead

and doing it without being told to do it.

"Imagination is the thing that causes a man to take old concepts or ideas and re-combine them into new plans. It was imagination which enabled Edison to take the old principle of short circuit resistance in electricity and combine them in what we now call incandescent electric light."

"A person without the great quality of action resembles a locomotive on the sidetrack or in the roundhouse with coal in the tender, water in the tank, fire in the fire-box, steam in the dome, but no engineer to open the throttle. This great piece of locomotive power is as useless as a sand dune until someone opens the throttle and puts the thing in action.

"The next step in the ladder is very appropriately called enthusiasm, because enthusiasm usually arouses one to action, therefore should be closely associated with it in the ladder. Enthusiasm usually develops automatically when one finds the work for which he or she is best fitted; the work which one likes best. It is not likely you will be able to maintain very much enthusiasm over work that you dislike, therefore it behooves you to search diligently until you can find the work

into which you can throw your whole heart and soul; the work in which you can earnestly and persistently lose yourself."

"An attractive personality may be described as one that draws people to you and causes them to find companionship and harmony in your company while an unattractive personality is one that causes people to want to get as far away as possible.

"Persistence and concentration are so closely related that it is hard to say where is the line that separates them. Persistence is synonymous with will power or determination. It is the quality which causes you to keep the powers of your mind focused upon a given object, through the principles of concentration until that objective is accomplished."

"Work is the shortest word of all those which constitutes the rungs of this ladder, yet it is one of the most important of those qualities."

"Do not stumble on this rung of failure.

"It is the most interesting rung of all, because it deals with facts which you must face in life, whether you wish to do so or not, and shows you, as clearly as you might see the sun on a clear day, how you can turn failure into an asset; how

you can make every failure into a foundation stone of which your house of success will stand until eternity."

"The Golden Rule offers the only sure roadway to happiness, because it leads straight through the field of useful service in the interest of humanity. It is the thing which develops the 'hive' spirit in man and causes him to submerge his selfish personal interests for the good of the race."

The following students attended:

Magdalene Arbuckle, Marjorie Clark, Cyril Caron, Marian Carney, Catherine Caron, Wilbur Cox, Laverne Bishop, Janet Dean, John Davis, John M. Fleehart, Katherine Guffin, Lucile Imlay, Howard Kendall, John Kelley, Helen Lambert, Emerson Headlee, Letha Higgins, Lowell Hutchinson, Helen Matlock, Lillian Mullins, Earl Morton, Harold Miller, Lotus Miller, Dorothy Mulno, Roberta Muire, Ruth Martin, Merle Maupin, Ralph Plessinger, Harold Perkins, Charles Pusey, Lillian Priest, Garrett Reynolds, Jean Sparks, Dorothy Sparks, Conwell Smith, Harriet Smith, Josephine Scholl, Courtland Spivey, John K. Tompkins, Helen Thomas, Harold Titsworth, Katherine Wyatt, Mary Louise Wyatt.

Domestic Economy Is Easily Learned

You can take a free lesson every day, simply by reading the advertising columns of this paper.

No matter how well you run your home—or your business—it can be done better and more economically. The advertisements teach efficiency in buying. They show you the cheapest and best markets.

They help make housework lighter by telling about the newest conveniences and labor-saving devices. The merchant or business man can get a good line on a thousand and one things that will help him materially.

No home and no business can progress by standing still. The advertisements help you keep up with the bandwagon.

If you want a real lesson in economy,

Watching The Score Board  
\*\*\*\*\*  
Yesterday's Hero—Joey Sewell  
made a remarkable stop and throw  
to the plate that cut off a run in  
the eighth inning and the Indians  
beat the Browns, 2 to 1.  
Cy Perkins hit two homers help-  
ing the Athletics beat Washington  
7 to 1.  
Dana Fillingim spitballed the  
Giants to death and the Braves won  
out 6 to 2.  
Joe Bush outpitched Waite Hoyt  
and the Red Sox set the Yanks back  
2 to 1.  
Tight pitching and timely hitting  
in both games enabled the Cards to  
take a doubleheader from the Cubs  
at 1 to 0 and 3 to 2.  
Lee Meadows was in fine form  
and the Phils beat the Robins 5 to  
2.

FAVORS BUYING  
A LARGE PUMPER

“Another Interested Citizen” Writes  
Letter Regarding Proposed Fire  
Equipment

DISAGREES WITH THE FIRST

Calls Attention to The Fact That  
Mill Race is Available For Big  
Fires Down Town

“Another Interested Citizen”  
writes the Daily Republican today  
regarding the proposed fire equip-  
ment, taking issue with some of  
the statements of an “Interested  
Citizen” who addressed a letter to  
the Republican Tuesday. The latest  
communication advocates the pur-  
chase of a large pumper in the fol-  
lowing communication:  
An “interested citizen,” one who  
evidently is on the payroll of the  
city, comes to light with some very  
interesting things about a motor  
pumper which the city council is  
thinking of buying. He sets out  
facts to the very gallon that the  
pumper may get from a 4 inch main  
and evidently knows his business,  
but I disagree with him when it  
comes to buying a pumper, “not one  
larger than your available sources  
of water will supply,” as he says.  
The council under no considera-  
tion should purchase a pumper less  
than 500 gallons per minute. The  
writer of the article will not agree,  
and I would almost wager that he  
never had a fire. If anyone ever has  
a fire there never is enough equip-  
ment on hand to work with, is the  
opinion of the one who has the fire.  
The object in buying a pumper is  
to save the mains. The biggest fires  
in Rushville take place in the busi-  
ness district and the 500 gallon  
pumper demonstrated here recently  
worked perfectly from a cistern,  
which is centrally located in the  
business district. The Mill race al-  
ways has had water in it in case of  
a big fire and any pumper could not  
exhaust this supply.  
A large pumper, say 500 gallons,  
would be the logical thing to buy.  
A small fire may be extinguished  
with small equipment, but a large  
fire cannot be taken care of with  
small equipment. The council spends  
considerable money on repairs such  
as boilers, new roofs, automobiles  
and equipment for the water and  
light plant, but the fire department  
and protection of the city has been  
sorely neglected since 1896, when  
the steam engine was purchased.  
The horses should be kept on the  
hill, and a good pumper down town  
with the chemical truck. If the coun-  
cil buys equipment, let them buy  
something that is worth while and  
useful, or else continue twenty  
years behind the times with horses.  
ANOTHER INTERESTED CITIZEN

\*\*\*\*\*  
ANOTHER ATTACK MADE  
ON THE DOUBLE STANDARD  
\*\*\*\*\*

Washington, Sept. 7.—An attack  
on another outpost of the double  
standard was launched by women  
government employees today.  
Miss Gertrude McNally, a vice  
president in the National Federation  
of Federal Employees announced  
that she will ask the federation at  
its convention in New Orleans Sep-  
tember 12 to adopt resolutions pro-  
testing against a double standard of  
wages.  
Miss McNally's resolution states:  
Under war conditions when more  
were employed, only five percent of  
the women were paid more than \$1-  
300 while 46 percent of the male  
employees received more.  
“Many bureaus have a virtual  
deadline for women in respect to  
salaries,” she says.

HERE FOR TWO WEEKS  
Envoy W. H. Evans of Indiana-  
polis came today to assume charge  
of the local Salvation army, during  
a two weeks leave of absence grant-  
ed to Envoy and Mrs. Ellis. Envoy  
Evans will reside at the Ellis home  
and will be glad to make the acquain-  
tance of Rushville people. Envoy  
and Mrs. Ellis left this afternoon for  
Kempion, Ind., where they will visit  
during his furlough.

RECRUITING RENEWED  
Washington, Sept. 7.—The war  
department has issued orders for  
resumption of recruiting to the army  
Secretary of War Weeks has an-  
nounced. This action was taken,  
Weeks explained, because of the  
wholesale discharge of enlisted men  
brought the total strength of the  
army below 150,000, the strength  
authorized by the army appropri-  
ation bill.  
Our slogan still holds good “Want  
Ads bring results.”

“You See, Buick Knows How  
to Build a Rear Axle”

It's a rugged, powerful axle, built  
to stand up under all road con-  
ditions. And every unit of the Buick  
car is like the axle—strong and  
serviceable. Buick 1922 models  
have this traditional sturdiness.  
Step in and see them to-day.

# SOCIETY

Edited By Miss Edna Krammes  
Phone 1111

The regular meeting of the Rebekah lodge will be held Friday evening in the lodge rooms in West Second street. All members are urged to be present.

The finance board of the First Baptist church will meet tonight at the home of Mr. and Mrs. Henry Alsop in this city. All members are urged to be present.

The first annual reunion of the Webb family will be held Sunday at Webb's ford southwest of the city. All members of the family are cordially invited to attend this affair.

Mr. and Mrs. Thurman Downs entertained with a prettily appointed dinner party Monday evening at their beautiful country home southwest of the city. Following the dinner the guests enjoyed the evening with music and games.

Mr. and Mrs. Charles Eddy entertained the Progressive Boosters class of the First Baptist church last evening at their home in West Tenth street. A business session and

social hour was held and light refreshments were served.

Mrs. Lillie Fitzgerald and William J. Schobin, both residents of this city, were united in marriage last evening at the Main Street Christian parsonage by the Rev. L. E. Brown. Mr. and Mrs. Schobin will reside on the William Knecht farm north of the city.

The members of the Woman's Home Missionary Society of the St. Paul's M. E. church will meet at the home of Mrs. Samuel S. Morgan 127 West Seventh Street, Thursday afternoon at 2:30 o'clock. The dues for the year will be paid at this time.

Miss Thelma Green entertained the members of the Triangle Mission club of the Main Street Christian church last evening at her home west of the city. An interesting program was given and the remainder of the evening was enjoyed with games and music. Delicious refreshments were served by the hostess.

The Ladies Aid Society of the First United Presbyterian church was delightfully entertained yesterday afternoon at the home of Mrs. Jesse Logan in West Third street. The regular program and business meeting was held. A social hour was enjoyed at the close of the meeting and the hostess served dainty refreshments.

The Sexton Missionary society will hold their September meeting Wednesday, September 14 instead of Tuesday, September 13. The change was made on account of the county conference. The members are planning for an all day gathering with a pitch-in dinner in the lodge hall. The program will be in charge of Miss Marion Pratt and will be given in the church. The public is invited.

Mr. and Mrs. Claude Spilman have returned from Tipton where they attended the wedding of Miss Lois Blount and Mr. Herman Sheedy, which was held in the Main Street Christian church. Miss Blount was a college friend of Mrs. Spilman, both having attended Butler college. Mr. and Mrs. Spilman also visited Mr. and Mrs. William Arthur of Marion, Ind. Mrs. Arthur was formerly Miss Lois Ballenger of Milroy before her marriage.

The W. R. C. Penny Social met yesterday at the beautiful home of Mrs. Keck in Circleville. Mrs. Mattie Worth, Anna Gilson and Hettie Worth assisting. At noon an elegant fried chicken dinner was served by the hostesses to the thirty members and four little guests present. After the business session a very interesting program was given. The remainder of this most enjoyable day was spent socially. The October social will be held at the home of Mrs. Wright.

Mrs. Sarah Elder entertained Sunday at her home in West Tenth street with a family dinner in honor

of her two brothers, Uriah Warfield and Adam Warfield. At the noon hour a bountiful pitch-in dinner was served to the guests and in the afternoon refreshments of watermelon, ice cream and cake were served. Aside from the guests of honor those present for the affair were: Mr. and Mrs. Roy Elder and son LeRoy of Mauzy, Mr. and Mrs. Charlie Keith and daughter Mary Lois, Mr. and Mrs. Otis Rankin and son William Dwight, Bert and Virgil Elder, all of this city. In the afternoon Sam Gallimore was also a guest.

Mr. and Mrs. Joe Geise of Los Angeles, California, were the dinner guests last evening of Mr. and Mrs. Cleve Geise of west of the city. Later in the evening they visited Mr. and Mrs. Wilbur Geise of this city.

A number of people delightfully surprised William O'Neil last evening at his home in East Seventh street, honoring his birthday anniversary. The guests enjoyed the evening socially with games and contests. Delicious refreshments were served late in the evening. Among the guests present were Mr. and Mrs. W. L. Downey and son Lawrence, and Mr. and Mrs. Harry Collier of Greensburg.

## Hand Painted Gown Coming To New York

By CHAS. MCANN  
London, (By Mail).—Carlo Norway, inventor of the hand-painted frock, which is to be an autumn fashion feature in London, is on the eve of departing to the United States to introduce the fashion there for the fall season.

Norway, one of the leaders of the younger art colony in London, conceived the idea of painting on silk, velvet and similar textiles during ten years of experimenting in various methods of painting and etching.

His exhibitions at London art galleries were always popular, and he had been the hit of several general exhibitions with his varied work in painting, pastel, applique, wall and window decorations, glassware vases, bowls, line-cuts, curtains and even wall-paper.

A few months ago Norway began stenciling on cloths. The work was done largely to find what effects were possible. A brother artist, Louis Fox thought of the possibility of applying the stenciling to dress materials. This was a great success, and Fox suggested marketing stencilled frocks and gowns. The frocks were an immediate hit. The Duchess of Rutland, Lady Cunard and Lady Hamilton were pioneer wearers, and, as an absolutely individual design could be guaranteed, it was not long before the idea had caught on.

For several weeks, orders have been multiplying from dealers. In some cases individual designs are wanted; in others a dozen or more frocks of one design.

It is almost impossible to duplicate designs except from the original stencil. Any sort of design is possible. Most have been figured; in some, allegorical designs of animals, birds and fish have been used. The oil paint used is impervious to water, and will not crack. Due to the success of the experiment, Norway decided to go to New York for the autumn season.

## DECISIVE DEFEAT OF TWELVE IS SEEN

Continued from Page One  
during any official's term of office. Complete returns will not be made for several days.

### All Believed Lost

Muncie, Ind., Sept. 7.—Official returns from 30 to 35 precincts in Delaware county indicated all the proposed thirteen amendments to the state constitution had been defeated.

A total vote of 3,030 or 12 percent of the normal vote in the county had been cast today.

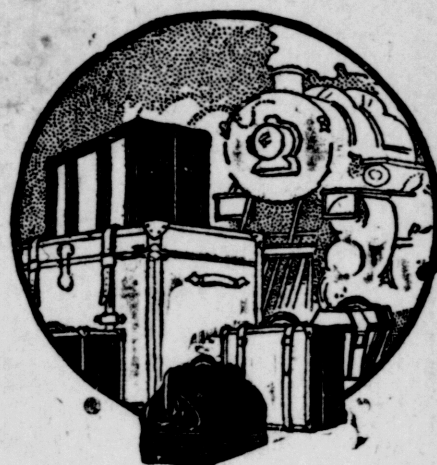

### Tax Amendments Defeated

Laporte, Ind., Sept. 7.—County Clerk Rogers counting the election returns for Laporte county at noon today stated that the two tax amendments had been overwhelmingly defeated in Laporte county. Early returns also indicated that amendment 13 was likewise defeated. Amendment No. 1 appeared carried by a majority vote.

### Two Pass at Richmond

Richmond, Ind., Sept. 7.—Only the first two of the thirteen proposed amendments to the state constitution carried in Wayne county, according to complete unofficial returns. The tax amendment lost 5 to 1. Not

# Going To College This Fall How About Your Luggage?

If for the first time you are entering some College or University during the next week, you will need a trunk, bag or suit case to take your needs in wearing apparel for the many weeks to come.

With your many needs in mind we have guided our purchases in the luggage line—procuring the best for the money in a wide range of prices. For boy or girl there awaits you a full line of travelling luggage.

## BAGS

In Black and Brown, from Fabrikoid to genuine cowhide—in a wide range of prices from \$4.50 to \$22.50

## TRUNKS

Steamer, Dress and Wardrobe, in all sizes, both fibre and slat. Prices from \$9.50 to \$45.00

## CASES

Straw Matting, Fibre and genuine Cowhide in smooth and grained leather—all qualities from \$1.39 to \$15.00

## Full Size Wardrobe Trunk Specially priced, \$18.75

Veneer construction—five drawers—four hangers—good hardware drawer bolts and lock—lined with fancy pattern cloth—sells as low as a regular dress trunk—let us show you. Steamer Size Wardrobe Trunk, same construction as above \$17.00

## Hartman's Wardrobe Trunk Priced this week for \$45.00

Truly a finished trunk for a college Miss—cushion top—three-ply veneer body—black fiber covered and bound. Lined and faced with fancy blue cloth, cushion top, hangers, retaining bar, laundry bag and shoe flap. Ladies' hat carrier in lower drawer. Very convenient for your clothes in your room at school. Former price \$59.50.

## MAINTENANCE OF ROADS ADVOCATED

F. W. Fenn, Secretary of National Motor Truck Co., Urges Federal Scheme For Upkeep

### TAKE ONES WHO USE ROADS

New York, Sept. 7.—A permanent federal maintenance plan for national highways was urged today by F. W. Fenn, secretary of the National Motor Truck Co., of the National Automobile chamber of commerce.

"Funds for such a project could be obtained from the traffic using the highways", Fenn said.

"If we could have a regular patrol—similar to the track walkers on the railroads—breaks could be repaired as soon as they occur, the cost of repairs greatly lessened and the life of the highway lengthened."

"Under such a system we would have a read bed open to traffic all the year detours would be eliminated and the most of highway building would be greatly reduced."

Fenn said that more than 5,000,000 passengers were moved over the American highways by automobiles last year compared with 1,234,000,000 passengers on steam railways, the former representing a gain of sixty million. As regards freight, automobiles carried 1,200,000,000 tons in 1920 compared with 2,504,000,000 tons for the railroads.

## There Are Pleasanter Things Than Carrying A Basket.

AND MORE PROFITABLE THINGS, TOO

We do not ask you to carry home your groceries. We believe that we can perform this for you cheaper than you can do it for yourself.

Our growing business is proof that the housewives of this community feel the same way about it.

## PHONOGRAPH? NO! IT'S A FURNACE.

A clever designer has developed a heater that has all the appearance of a handsome cabinet phonograph, yet which works like a pipeless furnace.

This new heater is now on exhibition in the store of Gunn Haydon. To carry out the phonograph idea it is called the Heatrola. Its full name is Estate Heatrola, the heater being a product of The Estate Stove Company.

The Heatrola is fashioned like a handsome cabinet phonograph. It is, of course, made of steel plates, but these plates are finished to look like mahogany, grained like rare old wood, polished to the fine lustre of expensive furniture.

The resemblance to a phonograph is carried out all through. The front, the sides, the top, even the supporting legs, are like a phonograph. And the ornamentation is what you would expect to find on an artistic wood cabinet.

The Heatrola is so cleverly designed and built that it is more than a stove. It is a regular warm-air furnace, a pipeless furnace which will heat from three to six connecting rooms. It does everything that a furnace will do, keeping your rooms warm as toast throughout the coldest weather.

The Heatrola burns any kind of coal, hard or soft, lignite or slack. It is guaranteed to hold fire for fifty hours at one charging.

The big economy argument for the Heatrola is that it gives furnace comfort at stove cost.

Physicians are praising the Heatrola because it circulates warm, moist air continuously. This is acknowledged to be the healthiest heating method known. Air is taken from the room, then heated, sterilized, moistened and discharged through registers at the top, just like a pipeless furnace. The moisture is supplied by a white enameled vapor tank set in the rear of the heater.

Housekeepers will be delighted with the Heatrola because it is so easy to keep clean. The polished mahogany finish can be rubbed and dusted with a cloth just as other furniture is handled. No blacking, no polishing of metal, no rust. Just a beautiful finish like real mahogany, which harmonizes with the richest furnishings—smooth as glass and handsomely ornamental.

The Heatrola displayed in the window of Gunn Haydon's store is attracting a world of attention. It is such a novelty that people are talking about it everywhere. It appeals to everyone—and its legend which says: "Looks Like a Phonograph—Works Like a Furnace," is creating much comment.

The Heatrola is manufactured by The Estate Stove Company, of Hamilton, Ohio, builders since 1845 of the famous Estate Stoves, Ranges and Furnaces—Advertisement.

## COUNTY HISTORY BEING DELIVERED

Two Elaborate Volumes of More Than 1,000 Pages Required Year For Preparation

### REGARDED COMPLETE WORK

"Centennial History of Rush County" Gives Systematic Record of Events of 100 Years

In the preface to the "Centennial History of Rush County," which is now being delivered in this county by the Historical Publishing Company, it is stated that a glance at the table of contents of the work "will disclose a design on the part of the publishers to set out here a systematic record of the events which have led up to the present state of development of this favored region, beginning with the time when white men first set foot on this territory, and in carrying out this design the historians have sincerely sought to preserve something of the character and spirit of the age, so that there shall here be preserved a faithful chronicle of the aspirations and achievements of the pioneers, at the same time tracing and recording the social, religious, educational, political and industrial progress of the community from its inception. The context will reveal a purpose to preserve facts and personal memoirs that are deserving of perpetuation for the information of coming generations and which shall serve as links uniting the present to the past.

"In the same connection the publishers tender their thanks to the people of Rush county 'for the uniform kindness with which they have regarded this undertaking, and for their many services rendered in behalf of the historiographers,' and express the belief that 'it will be found that this unselfish collaboration has secured to Rush county a history that will stand as a standard in this field for the next generation and as an authentic guide to future generations.'"

The new history is issued in two volumes and carries something more than one thousand pages. It is adequately illustrated and amply indexed, the latter feature being one of special value to the reader. In the first volume the history of the county is carried under appropriate chapter headings and covers practically all phases of community development, such as the geology and topography of the county, Indian occupancy, early settlement, agriculture, transportation, bench and bar, military annals, including a review of Rush county's activities during the period of America's participation in the World war, county organization and government, townships and villages, the county seat, banks and banking, the newspapers, the medical profession, schools, churches, lodges and clubs and a concluding chapter on "Sidelights," closing with a word on the subject of biography, introductory to the second volume which is given over to the biographies of the old families of the county and in which, it is pointed out, "will be found much of the heretofore unwritten history of Rush county: intimate and informative details of the lives and labors of those stalwart men who took possession here and then passed on, leaving to their descendants the task of carrying on the great work they had so laboriously and so unselfishly begun."

The work has been compiled under the general editorial direction of A. L. Gary and E. B. Thomas of Rushville whose interest in local historical research has long been well known and who received the assistance of an advisory board representative of each of the several townships of the county and composed of persons qualified to pass judgment on historical matters relating to their respective townships. A. M. Kasper of the Historical Publishing Company (Indianapolis) has had charge of the technical details of compilation and publication and he and his staff have been for more than a year engaged in the work of bringing the arduous undertaking to completion.

## TEN DAYS MORE WILL INSURE CORN CROP

Good Weather Will Put Corn Out of Danger From Frost, Bryant Says in Bulletin

### WARNS ON WHEAT SOWING

(By United Press)

Indianapolis, Ind., Sept. 7.—Ten days more of good weather will put most of the corn crop out of the way of frost, George C. Bryant, U. S. Agricultural statistician, said today. Corn-cutting and silo-filling are general in all parts of the state, according to reports to the statistician's office and considerably more fall plowing than usual has been done to date.

Prevalence of Hessian fly throughout Indiana, Bryant said, makes it urgent that no wheat be sown until after fly-free dates, which range from September 20 in the northern part of the state to October 8 in the south.

Spring wheat acreage and yield were the lowest in several years, and much of the barley and oats crops will be used for hay only.

Potatoes show some improvement, but the crop will be very small, Bryant said. The apple crop is short. Tobacco growth while uneven, is generally much improved.

The demand for fall farm labor is considerably less than the supply, the reports showed.

## County News

### Sexton and Vicinity

Dr. and Mrs. J. L. Lord of Mays visited here Sunday.

Mr. and Mrs. Toney Mosier entertained guests from Connorsville Sunday.

Mrs. William Beacraft of Anderson, a former resident here, visited in this vicinity Monday evening.

John Paxton, Mr. and Mrs. Lowell Boles and children and Mr. and Mrs. Hungerford were dinner guests of Mr. and Mrs. Albert Boles Sunday.

The Rev. Mr. Crawley will begin a series of meetings here next Tuesday evening in the Christian church. The community is invited.

Mr. and Mrs. Vester Casey spent Saturday night and Sunday in Rushville with Mrs. Casey's parents. James and Gladys Casey who had been visiting there, returned home Sunday evening.

Mr. and Mrs. Harry Land and children attended the Land reunion Sunday at the city park in Rushville.

Mr. and Mrs. Marion Pratt and son Richard have returned home from a ten days visit in the northern counties.

Mrs. Vester Casey was taken to Indianapolis last Wednesday to see Dr. Barnhill in regard to throat trouble.

### REDUCES SIZE OF PAPER

Des Moines, Ia., Sept. 7.—The Daily News, a Des Moines newspaper which has been published for forty years, appeared today in half size form, five columns wide and sixteen inches long. The number of pages was increased, making the contents of the paper equal in quantity to the former full size. The new form was started as an experiment in handiness, condensation of material and saving of newsprint.

ment on historical matters relating to their respective townships. A. M. Kasper of the Historical Publishing Company (Indianapolis) has had charge of the technical details of compilation and publication and he and his staff have been for more than a year engaged in the work of bringing the arduous undertaking to completion.

## BUSINESS RELIES ON 2 MAIN FACTORS

They Are Power With Which to Produce Goods And Means by Which to Transport Them

### EXPRESS RECEIPTS STEADY

Electric Traction Lines of State Are Not Paying Huge Dividends And Not Making Profit

By CHARLES L. HENRY

(President, Indiana Public Utility Association, President Indianapolis & Cincinnati Traction Co.)

(Written for United Press)

There is probably no better indication of general business conditions than the condition of the public utility industry. In the last analysis the business world relies on two things, the power with which to produce goods, and the means by which to transport them to and from market. These things are the business of the public utility companies. The public utility operator, therefore, is in the same position with regard to the business world at all times. The utility operator is busy supplying electric power, light transportation, gas, water and telephone service. When business is good, the utility operator is busy, when it is poor, he is not.

Operators of utility companies in Indiana are generally of the opinion that the business prospect now is better than it has been in many months. For months after month, up to July and August, they have been facing decreasing receipts compared with the months of 1920. Now, however, in some cases, comparing with early months of 1921, shows an upward trend. Consumption of electric power is increasing, and in the traction business freight and express receipts are holding steady instead of falling off as they had been early in the year. Speaking informally for the traction operators, I may say that practically all of them are looking for better business.

Passenger receipts are not what they were, in spite of the fact that all the interurban companies have been forced to ask for higher fares. These fares have been granted, in many cases, but even so the total receipts indicate a smaller volume of passenger business than was handled a year ago. It is our observation, however, the good passenger business follows a revival of trade, whereas increasing freight and express business precede activities. That is the reason why traction men generally are hopeful for better things in the near future.

The electric traction lines of Indiana are not paying huge dividends not making excessive profits. Indeed some of them are losing money but most of them are in such condition that they will be able to handle an increasing volume of business provided the increase is not too long developing. Most of the companies are behind with their maintenance and improvement work because they have not been making enough money in the last three or four years to keep up with the program. The companies are not by any means as profitable as other lines of business but not many of them have been forced into receivership, and consequently should be able to keep step with improving conditions. We expect to take our part in the general revival of trade that is on its way.

\*\*\*\*\*

\* They're Going to Wear

\* Sleeves on Their "Undies" \*

\*\*\*\*\*

New York, Sept. 7.—They're going to wear sleeves on their undies.

"Even the night gowns are going to be longer and have sleeves on them," J. Iserson, of A. Iserson & Company, big lingerie manufacturers, declared here today.

"Heretofore lingerie style has been for ribboned shoulder bands and no sleeves at all. But women discovered the sleeves were more comfortable for fall and winter wear."

"The majority of Philippine lingerie shown here now is sleeved. Among the most interesting are those with the V front neck line cut low and a higher round shape at the back."

Night gowns too, hereafter will be given sleeves where previously sleeves were not in vogue."

### P. O. ROBBERS ESCAPE

Toledo, O., Sept. 7.—Police in every city of the United States and Canada have been asked to search for Joe Urbaylis, Charles (Split Lip) Schultz and George Rogers, alias Lewis, convicted postoffice robbers who escaped from the Lucas county jail after overpowering two deputy sheriffs.

## Are They Getting A Square Deal?

THOSE Children of yours—Man, but you're proud of them. You think of the things you want to give them—an education—everything that will help them make their mark in life. But—are you doing anything besides thinking about it? Are you really giving them a square deal?

One thing that contributes a great deal towards a man's success in life is the proper Home Environment during his youth. Children cannot get the proper environment under somebody else's roof. Just renting a house, moving about, changing schools, etc., doesn't give them the opportunity to progress that they would have if their folks owned a home. And—have you stopped to think that if you keep on renting, the money you will pay out between now and the time when your children are ready for college will more than pay their way through school? Think it over! Give those children of yours a square deal; and when you decide to build call on us for assistance. The men in our Home Builders' Department can give you valuable suggestions and advice relative to planning, financing and building your home. We will give you honest-to-goodness Service and Quality that Satisfies.

## ALASKAN AFFAIRS TO BE CONSIDERED

Senator New Has Introduced a Bill to Consolidate all Agencies Governing Alaska

### MANY GOVERNMENT EVILS

Bills Transfers Power Relating to Alaska to Jurisdiction of Department of Interior

Washington, Sept. 7—Congress is going to give a thought to Alaska, which has too long been the Cinderella of the United States. Acquired 53 years ago for a paltry price, Alaska has experienced a career either of too much government or no government at all. For 17 years after its purchase by the United States it was without any civil government. It was 39 years before it was permitted to have a delegate in Congress and 45 years before it was permitted to have a territorial government. Equal in area to one-fifth the size of continental United States, its natural resources are the most valuable of any section of the United States.

Despite this, Alaska has either been exploited by private individuals or has had its development arrested by a system of strangling red tape. At the present, it is said that there are 30 odd federal government agencies which have to do, in some way or other, with governing Alaska. The result is hopeless confusion, interminable delay, conflict and overlapping of authority and division of responsibility, all of which have operated, on the whole, to defeat the development of that territory.

Senator New, of Indiana, chairman of the Senate Committee on

Territories, has introduced a bill which it is understood has the endorsement of the Administration, that will go a long way toward correcting these governmental evils. It will be taken up after the congressional recess. Briefly, the bill provides for a transfer of the duties, powers and functions relating to Alaska, now vested in the Department of Commerce, the Federal Power Commission, the Department of Treasury and the Department of War, to the jurisdiction and control of the Department of the Interior, which already has considerable power and authority pertaining to the government of Alaska. The powers transferred from the War and Treasury Departments, by Senator New's bill, are purely administrative, dealing with construction and maintenance of roads in Alaska. The purpose of the bill is to consolidate and centralize the authority for government in Alaska in one department and under one head thus eliminating duplication of expense and effort as well as fixing responsibility for affairs in Alaska.

A very important section of the bill provides that the United States Shipping Board shall transfer to the department of the Interior such ships, as may be designated by the President, of suitable capacity for handling the maritime passenger and freight carrying trade between the United States and Alaska, including all military forces, U. S. mails and other government property. These ships, together with the government railroad in Alaska, shall be operated in conjunction, under the management of the Secretary of the Interior subject to the same jurisdiction of the Interstate Commerce Commission as that commission has over the transportation lines in the United States.

This is of vital importance to the development of Alaska. The United States Government has expended over \$50,000,000 in building a railroad in Alaska, the main line of

## \* BRIGHT SPOTS IN NEWS \*

Chicago—Patrolman John Quinn saw a sailor keel over during a storm. He rushed him to a hospital believing lightning hit him. "Moonshine with a kick like lightning," the sailor's version when he came to.

Chicago—Snakes have only one fault, according to Frank Woodruff, museum curator—when they meet a female snake younger and more charming than their wives they never come home.

Elizabeth, N. J.—When Edward Haskell's pet pussy cat died he had it embalmed, allowed it to lie in state for a day while 200 friends came to see it and then wanted to bury it in a \$10,000 mausoleum beside his dead wife.

Cleveland—Admitting there are "a few places" where his men sleuth U. S. officials though they are, dare not tread, Prohibition Agent Fred Counts is looking for women to add to his force.

Cleveland—Joseph Wizbitski, 3, put his hand in a fire plug to "see what was inside." Firemen and police worked fur hours to set him free.

which is to run from Seward to Fairbanks. This railroad, however, cannot perform its intended functions of development of the interior of the territory touched by it and its tributaries, unless it has a free and profitable communication with the United States. At present it is at the mercy of private shipping concerns. Under Senator New's bill, it would be operated by the government in conjunction with shipping lines, also owned by the federal government which would guarantee it adequate and unobstructed access to the Pacific Coast ports of the United States.

## \* Restoring First Home Of U. S. Supreme Court \*

Philadelphia, Sept. 7—Workmen today are carefully tearing away all the "modern" work on the old Supreme Court Building here, one of the Independence Hall group of historical structure in order to get down to the original ancient structure.

The old building was the home of the first United States Supreme Court from 1791 to 1800, and was Philadelphia City Hall from 1791 to 1854. When the original structure is reached through the modern "improvement" work done on the building, it will be reconstructed in its original form. This work will cost \$55,000.

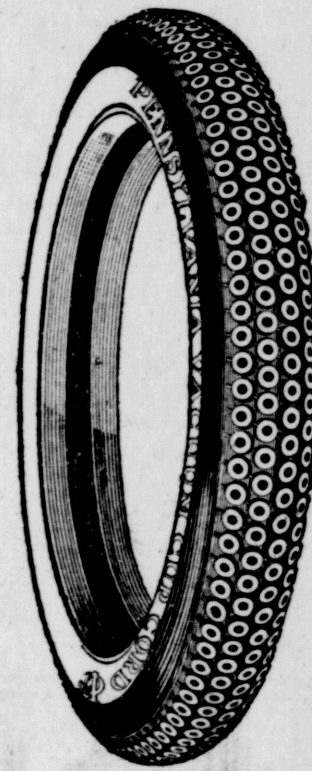

Several interesting points in the construction of the old structure already have been brought to light by the workmen—old-fashioned stairways, doors and passages which were torn away or filled in when the

building was "improved," and dark, damp dungeons in the cellar of the building, where the city's prisoners were kept in the days before the Civil War. Another interesting feature is the way the second floor is actually suspended from the roof. Instead of rafters, huge beams, with heavy iron hooks looping over the roof supports, hold up the floor.
